A still life composition featuring a small tree with moss, lemon slices, and honeycomb on a green leaf. The scene is set against a dark, textured background. The tree has a thick, gnarled trunk and is covered in vibrant green moss. Two white, smooth stones are perched on the mossy branches. A large, bright yellow lemon slice is positioned in the upper right, showing its juicy segments. Another lemon slice is in the lower left, also showing its segments. In the center, a piece of golden honeycomb rests on a large, variegated green leaf. The lighting is warm and focused, highlighting the textures of the moss, the smoothness of the stones, the juiciness of the lemons, and the intricate structure of the honeycomb.

## NGUPAPIRA

Rooted in the Balinese philosophy of Ngupapira, this heritage cocktail honors the act of caring. Inspired by traditional home remedies passed down through generations, Ngupapira blends the warmth of honey and fresh lemon juice with the citrus complexity of East Indies Pomelo, a spirit distilled locally in Bali. It offers more than just comfort, a soothing ritual in a glass, crafted to awaken, restore, and nourish the senses from within.
